What We Focus On

Work Safety and Security

- Following the highest safety standards
- Constantly investing in protection gears, according to European legislation currently in place
- Staff trained in matters of work health and safety
- Proactive approach towards accident prevention
- Clear procedures
- Fast and safe working process

What We Focus On

Ethics and Certifications

- A well established ethical code, communicated both to our employees and collaborators
- Quality guarantee proven by compliance to ISO quality management standards
- Own supply of scaffolding, authorized for use in Romania and certified by ICECON
- Work certificates for our crane and scaffolding operators that are recognized by The Ministry of Work and Social Solidarity

What We Focus On

Periodical personnel training

- First-aid training
- Adapting to the latest news in the field
- Constant training and assessment of our employees
- Ongoing development through specialized courses

How We Work

Stages

- 0 Analysis
- 0 Design
- 0 Offering
- 0 Deployment

Analysis

- 0 Involving the technical department
- 0 The technical department: the engineer and the person in charge of the works
- 0 Visiting the construction site
- 0 Analyzing the contracted buildings' blueprints

How We Work

Design

- 0 Collaboration between the technical departments
- 0 Identifying the best solutions for the safe installation of the scaffolding

Deployment

- 0 The intervention of the transportation and installation department (Building Divizia Montaj)
- 0 Using our own fleet of trucks equipped with cranes for a fast delivery of all materials
- 0 Sending multiple teams to complex projects
